

XOAM, Revolutionary Oil Absorbing Bag

Filter Product's XOAM Series of oil absorbing filter bags are uniquely designed for absolute micron filtration and high-capacity oil absorbing capability. Multi-layers of polypropylene microfiber and other proprietary oil retaining fibers are utilized in XOAM construction, allowing efficiencies of 95% or greater on microns ranging from 1 to 150.

XOAM oil absorbing filter bags are offered in sizes #1 and #2 to fit common industry filter housings and are available with options for steel or stainless-steel rings, or 7" plastic OSS, P, or F flanges which provide a positive seal and 100% recycle capability.

Depending on the micron rating, Size #2 XOAM bags may contain 30+ Sq. Ft. of media and can retain as much as 10.7 pounds of oil or more.

**OVER 30 SQUARE FEET
OF MEDIA. NEARLY 11 POUNDS
OIL RETENTION CAPACITY!**

Depending on the micron.

- Micron ratings from 1 to 150
- 2 industry standard sizes
- Choice of steel ring or plastic flange
- Wide chemical compatibility
- Excellent oil absorbing capabilities
- Handles on all bags
- Optional extended life feature
- Efficiencies to 95.0%

Typical Applications

- Food Processing
- Hydraulic Systems
- Gelatinous Contaminants
- Vacuum Pump
- Parts Washing
- Natural Gas Sweetening
- Natural Gas Dehydration
